MI SOLUCIÓN

URI Online Judge | 1144

Logical Sequence

Adapted by Neilor Tonin, URI 🇧🇷 Brazil

Timelimit: 1

Write a program that reads an integer N. N * 2 lines must be printed by this program according to the example below. For numbers with more than 6 digits, all digits must be printed (no cientific notation allowed).

Input

The input file contains an integer **N** (1 < **N** < 1000).

Output

Print the output according to the given example.

Input Sample	Output Sample
5	1 1 1
	1 2 2
	2 4 8
	2 5 9
	3 9 27
	3 10 28
	4 16 64
	4 17 65
	5 25 125
	5 26 126

Thanks to Cássio F.
